page4 CF «Aspern» and PO «Faith in Life» in the field of child protection (continued).

Our work for children.

The field of child protection is an endless space for responsible work. That is why the interests of children are the basis of our organizations. We understand very well that every child needs a family. Studies have shown that a loving family that supports a child can reduce the effects of stress and increase its emotional stability, allowing to better cope with life's ups and downs. Children are more resilient with strong family ties. But the problems in the family can lead to the removal of child and it will be left without parents. However, there are family forms such as foster families and guardianship, which can become a safe environment for such children. In order not to lose a single child, we take full care of the situation around childhood in Darnytsky district. Our work begins from the unborn child in the mother's womb to the well-rounded young person. For different categories, we constantly provide a stable level of quality services in small groups. There is a lot of controversy around families in which the parents are on the wrong path and it seems that removing the child will be the best way out of a difficult situation. But we understand the emotional component. It is always difficult for a child to part with people close to it. Therefore, our task is to identify family needs in time, understand the problems and nip them together in the bud. Smart parents know that sometimes it is hard to solve difficult situations on their own without help, support and additional resources. For them we organize: consultations with a psychologist, socio-economic assistance. However, if parents create conditions for their own child where there is a certain threat to child's life, such children are directed by the Children's Affairs Office to our Children Center. For 9 months specialists temporarily replace parents, organize full development for a child, round-the-clock care, psychological support, attend school. During the child's stay in the Center, work is done with the parents in order to maintain family ties. We are always interested in bringing the child home. But if the problem concerns the antisocial behavior and alcohol consumption, then child's return to the family is not possible. Such children are sent to foster family by structural subdivisions of Darnytsa district administration.

Long-term cooperation with Darnitsky District State Administration and deputies of Kyiv City Council.

The Foundation Aspern has been fruitfully cooperating with the Darnitsky District State Administration in Kyiv for 20 years. Also, our projects could not be implemented without the significant support of deputies of the Kyiv City Council. By joining forces, we have been able to overcome the difficulties and problems of homelessness and neglect. Over the years, we have helped 11,000 children together, raised one generation. Our graduates have started their own families and already have children. And the most important thing for us is that they come back to us and continue to do good deeds with us.

We truly thank the Darnitsky District State Administration and the deputies of the Kyiv City Council.

Memorandum of cooperation with online-store ROZETKA™.

The Foundation Aspern is always looking for different options for financial support. After all, we are financed from the budget in a very limited way. There are companies that support CSR (corporate social responsibility), and there are companies that understand the importance of supporting our charitable programs in the field of child protection and our significant contribution to public life. And the company Rozetka opened an opportunity for us to cooperate under the program "Help that is needed". The memorandum of cooperation that we signed gave us the opportunity to order the necessary goods at a personal discount. And we use the saved funds for the further needs of children.

We thank Rozetka Company for helping us to change lives for the better.

The Victory of CF "Aspern" in the social project «You Can - Metro Will Help!».

On September 5, 2019, the project "Healthy cuisine for children and youth" of the Foundation "Aspern" won in the social project "You can - METRO will help!". The aim of the project was to improve the work of the kitchen, to hold various events and culinary workshops for 124 children and youth on healthy eating and healthy living. The project is now complete, but the staff of the Foundation Aspern continues to conduct classes, culinary master classes.

The children took an active part in the project. So 15 years old Maria with her younger sister live in our center. And they came to the CF Aspern after being removed from the family. Unfortunately, the children suffered from a wrong lifestyle led by their mother. Often they had nothing to eat, and the food that they had was not fresh. The girls were often hungry. During her rehabilitation, Maria became a participant in the project "Healthy cuisine for children and youth", which gave her the opportunity to gain new knowledge about whole foods, healthy eating, and better health. She happily learned to cook different meals, combine products and now continues to actively promote it among friends.

Together with METRO and Food Bank Ukraine, CF Aspern helps children and young people to grow up healthy and organize healthy nutrition among the younger generation.

Learn three ways to support our work!

DONATIONS: Donations can be made safely online by transferring funds to one of our accounts! The donation depends on your abilities.

RELEVANT GIFTS: There are companies that make gifts for employees, spending money, time, etc. If such a company wants to have a positive impact on society, then these costs can raise even 3 times more the standard of living of a child, young person, family. Contact your employer to find out if your company is ready to become an ambassador of good deeds.

HONORARY GIFTS: A gift is an important way to honor or remember a loved one, celebrate a holiday, birthday, or Mother's Day. In the CF Aspern or the PO Faith in Life, you can contribute to the value of a gift to a close person. And you will receive a personal certificate of appreciation from us for your good deed. Acting for the benefit of the children around you is the best investment in your own stability.

CF «Aspern» and PO «Faith in Life» in the field of child protection.

Charitable Foundation "Aspern" is a non-profit organization established in 2000. Public organization "Faith in Life" is a non-profit organization established in 2017.

Our mission is the well-being of children in healthy and happy families. We work with children and for children. We believe that the family plays a key role in a child's life and fully influences his or her life. We know that parents are the best experts for their children, primary caregivers and the biggest source of support for the child.

In our work we are guided by: the statutes of organizations, the laws of Ukraine, the "Policy for the protection of children's rights."

The main principles of our work: respect for human rights; respect for honor and dignity; social justice; accessibility and openness; individual approach; complexity; consistency and diversity of social services; systematic approach; confidentiality; ensuring a high level of service quality.

We help:

- *Children:* from disadvantaged families, orphans, children deprived of parental care etc .;
- *Young people:* graduates of boarding schools, family-type orphanages, etc .;
- *Families:* in need of help; internally displaced, incomplete, large, etc .;
- *Women:* pregnant women and mothers with children who have suffered from various forms of violence.

We develop: volunteering, charity, services in the field of social protection of children.

One of the stories: for six months the mother did not visit her 5-year-old daughter. But then she came, spent time with the child and braided her hair, promising to return soon. After her mother left, the girl did not allow anyone to unraid it for a month, as her mother said she would come and make a new hairstyle. The mother never returned to the child.

We have 5 programs and 3 projects.
